

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Todd Lemmon  
DOCKET NO.: 09-26607.001-R-1  
PARCEL NO.: 02-06-108-009-0000

The parties of record before the Property Tax Appeal Board are Todd Lemmon, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 4,500**  
**IMPR.:   \$ 38,220**  
**TOTAL:   \$ 42,720**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of 15,000 square feet of land improved with a one-story, masonry, single-family dwelling, which is owner-occupied. The improvement contains 3,350 square feet of living area as well as a partial basement and two and one half-baths, therein.

As to the merits of this appeal, the appellant argued that the fair market value of the subject is not accurately reflected in its assessed value as the basis for this appeal.

The appellant's pleadings include recent sales data reflecting that the subject property is located in Barrington and that it sold on September 22, 2009. The appellant's statement indicated: that the sale was not between related parties; that the parties were each represented by real estate brokers; that the subject property was advertised on the open market; and that the buyer's did not assume the seller's mortgage. In support of this sale, the appellant submitted a copy of the closing statement indicating a purchase price for the subject property of \$480,000.

Based upon this data, the appellant requested a reduction in the subject's market value.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed as \$65,102. This assessment reflected a total market value of \$731,483 or \$218.35 per square foot based upon the application of the Illinois Department of Revenue's three-year median level of assessment for tax year 2009 of 8.90% for class 2 property, as is the subject property.

The board of review submitted descriptive and assessment data relating to three suggested comparables located either on the subject's block or within a one-quarter mile's radius from the subject. The properties are improved with a one-story, frame and masonry, single-family dwelling. The improvements ranged: in bathrooms from two and one half-baths to four and two half-baths; in age from 36 to 40 years; in size from 3,018 to 6,064 square feet of living area; and in improvement assessment from \$9.42 to \$21.38 per square foot of living area. Amenities include a partial basement and two-car garages. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant reiterated her argument that she purchased the subject property in an arm's length transaction which closed in September 2009.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. 86 Ill.Admin.Code 1910.63(e). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board finds that the appellant has met the burden of demonstrating that the subject is overvalued and that a reduction is warranted.

The Board finds that the best evidence of market value was the recent purchase price of the subject property. The un rebutted evidence demonstrated that the subject sold on September of 2009 for \$480,000. The Board further finds that the county failed to proffer any evidence indicating either that this sale was not an arm's length transaction or that there were sales comparables located within the subject's area which rebutted the validity of the subject's sale price.

On the basis of this analysis, the Board finds that the subject had a fair market value of \$480,000 as of the 2009 assessment date at issue. Since fair market value has been established, the Department of Revenue median level of assessment for Cook County class 2, residential property of 8.90% for tax year 2009 shall

apply to this subject property. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
